63 - SMOKEJUMPERS. See National Mobilization Guide, Chapter 63. With the exceptions noted below, all Great Basin units will order smokejumpers from the appropriate Great Basin Coordination Center via established dispatch channels.

63.1 - NUMBERS . See National Mobilization Guide, Chapter 63.1.

63.2 - SMOKEJUMPERS GEAR WEIGHTS AND VOLUME . See National Mobilization Guide, Chapter 63.2.

63.3 - GREAT BASIN SMOKEJUMPER BASES .

63.3.1 - McCALL SMOKEJUMPER BASE (USFS) . Normally staffed with 70 smokejumpers. Dispatch centers that can order direct are the Boise Interagency Logistics Center, Sawtooth National Forest Dispatch, Central Idaho Interagency Fire Center, Southern Idaho Interagency Logistics Center, Nez-Perce National Forest and the Wallowa-Whitman National Forest.

In order to maintain the flexibility of responding to several concurrent requests, the standard DC-3 load will remain at 12 jumpers. However, the aircraft will be equipped with standard cargo for 16 smokejumpers, plus a Hale Fry pump with 1,000 feet of hose.

If the need exists for more than 12 jumpers, e.g., multiple fires requiring 4-6 jumpers each, or an emerging fire that could require 14-16 jumpers, a special request for this larger load can be made with no delays in the departure time.

A full 20-person smokejumper crew can be delivered to an incident where a Type 1 Crew is needed. The 20-person crew request should be used in situations where all 20 jumpers would be dropped in the same location. This 20-person crew is equipped to be self-sufficient for 2 days. No pump or hose is included with this load. Concurrence of the National Interagency Coordination Center must be obtained prior to use of smokejumpers as a Type 1 Crew. See National Mobilization Guide, Chapter 22, Subsection 4.

63.3.2 - BOISE SMOKEJUMPER BASE (BLM) . Normally staffed with 86 smokejumpers. The primary mission of the BLM Boise Smokejumpers is to provide wildland fire services to BLM and interagency land managers.

The WGBCC will coordinate all requests for Boise smokejumpers. Utah, Idaho and Colorado have a contingent of twelve (12) smokejumpers available to them through the WGBCC.

The De Havilland DHC-6 Twin Otter will be the primary aircraft utilized by the Boise smokejumpers. The normal configuration for this aircraft is eight (8) smokejumpers with gear plus one (1) pilot and one (1) smokejumper spotter, both of whom stay with the aircraft.

Other aircraft used, BLM Alaska or USFS, will be pre-positioned to maximize mission effectiveness.

Additional smokejumpers or aircraft ordered to supplement base operations in Boise will be coordinated by the WGBCC.

Utilization of BLM Boise smokejumpers will be overseen by the BLM Program Support Manager.

63.3.3 - WEST YELLOWSTONE SMOKEJUMPER BASE (USFS) . The West Yellowstone, Wyoming jump base is normally staffed with 15 smokejumpers. Units that can order direct are: the BLM-Eastern Idaho, the Grand Teton National Park, the Targhee, Bridger-Teton, and Caribou National Forests.

63.3.4 - MISSOULA SMOKEJUMPER BASE (USFS) . There are normally 60 smokejumpers located at Missoula, MT. The Salmon Interagency Dispatch Center can order direct.

64 - LEADPLANE AND SMOKEJUMPER PILOTS. See National Mobilization Guide.

65 - RAPPELLER AND HELICOPTER MANAGER GEAR WEIGHTS AND VOLUME. See National Mobilization Guide.

66 - COMMUNICATIONS COORDINATOR (COMC). See National Mobilization Guide.

68.2.2 - GREAT BASIN TYPE 2 INCIDENT MANAGEMENT TEAMS . There are six Type 2 Incident Management Teams in the Great Basin. The Incident Commanders for these teams are:

IDAHO

Paul Broyles	(ID1)	Internet: Paul_Broyles@nps.gov
Merrill Saleen	(ID2)	Internet: Merrill_Saleen@nifc.blm.gov

UTAH

Jerry Brunner	(UT1)	Internet: Jerry_Brunner@fs.fed.us

NEVADA

Bill Van Bruggen	(NV1)	Internet: Bill_VanBruggen@fs.fed.us
Rowdy Muir	(NV2)	Internet: Rowdy_Muir@ut.blm.gov

See Section 22.5.A for specific guidelines, requirements, and operating procedures.

68.2.2.A - CURRENT-YEAR ROTATION . The Great Basin Type 2 Team rotation and call-out schedule will start May 23, 2003 and continue through September 25, 2003. Each on-call period will begin at 0001 Hours Friday (Mountain Time) and continue through Thursday at 2400 Hours (Mountain Time).

This rotation is set up with three zone teams on a 2-hour call every two (2) weeks. If all three (3) on-call teams mobilize in their rotational period, a 4th team will be imported from another geographic area and preposition at a jet port in the Great Basin. If this imported team has not been assigned when a new 2 week rotational period begins, it can remain available up to seven (7) days from their arrival in the Great Basin, and designated as “first team up”; otherwise, it can be released. A team is available for reassignment within their rotational period, providing they have a 1-2 day rest period between assignments.

All teams will adhere to the two (2) week rotation period. There generally will be no “early up” when other teams have been called, & none remain on-call in the standard rotation.

Should there be only one (1) Type 2 Team available within the Great Basin, the Great Basin Coordination Centers will not honor any requests from outside the Great Basin for a Type 2 Team.

The response time for “on-call” teams will be set by the Coordination Centers based on planning levels and predicted activity. For example, at the beginning of the season, the teams may be placed on an eight (8) hour call up instead of the normal two (2) hour call up during the height of the fire season.

Alternate methods of filling team positions, other than the Command and General Staff, can be utilized providing this is pre-identified and closely monitored. Positions may be shared by two (2) predetermined, qualified people. Positions may be assigned to a department or agency to fill that has a “pool” of qualified people. It is critical that dispatch and coordination centers know the method being used, and coordinate any changes.

Priorities for filling positions will be:

- a. Agency or department employees
- b. Emergency Fire Fighter (EFF, non-retiree) below the Command and General Staff level only

- c. Emergency Fire Fighters (EFF), retirees, utilized primarily as “coaches” to develop trainees into any position
- d. Service contract, subject to National Wildfire Coordinating Group (NWCG) restrictions
